

Single dimming control for Niko Home Control, anthracite coated

122-51043

4 year warranty

This push button allows you to dim one light point or light circuit. It is attached to the wall-mounted printed circuit board via a click mechanism. Switch including button. Finishing colour: anthracite coated.
This article is protected by at least one patent (application). For more info on patents, see www.niko.eu/innovation.

Technical data

Single dimming control for Niko Home Control, anthracite coated.

- Material central plate: The central plate is enamelled and made of rigid PC and ASA.
- Print: Arrows printed on the top and bottom keys show whether you are dimming up or down. On the middle key(s) a lamp is printed indicating the favourite button. If you press this key the lighting automatically goes to the set dim level.
- Colour: enamelled anthracite (approximately NCS S 7502 - R, RAL 7022)
- Fire safety
 - the plastic parts of the central plate are self-extinguishing (comply with a filament test of 650 °C)
 - the plastic parts of the central plate are halogen-free
- Input voltage: 26 Vdc (SELV, safety extra-low voltage)
- Dismantling: To dismount simply pull the central plate off the base.
- Impact resistance: After mounting, an impact-resistance of IK06 is guaranteed.
- Dimensions (HxWxD): 44.5 x 44.5 x 8.6 mm
- Marking: CE
